Re : Invalidation Action Against Korean Patent No. 419298
 owned by Gyuhak Cho (a Korean Individual)
 Response to Mr. Cho's final Appeal before the Supreme Court
 Trial No. : 2006 ㄸ 1674
 Your Ref. : TFP-2297-2
 Our Ref. : SR060314-PRTIR1

Dear Mr. Hsieh :

We have received a Decision from the Supreme Court of Korea in connection with the above-identified patent registration. Copy of the Decision is enclosed for your records.

We attempted to contradict Gyuhak Cho's argument by submitting a Legal Brief of Response to Mr. Cho's final Appeal before the Supreme Court based on that Mr. Cho's invention is deemed obvious to a person having ordinary skill in the art in view of the combined teachings of the cited references.

We are pleased to advise you that our argument dated July 31, 2006 has been accepted, and Mr. Cho's invention(Korean Patent No. 419298) has been finally invalidated.

It takes some time for the Supreme Court's decision to be reflected on the Certificate of Patent Registration.

We will, of course, monitor the developments in this matter, and let you know if the subject decision is reflected on the Certificate of Patent Registration No. 419298.

Very truly yours,
J. LEE & ASSOCIATES
